

Our Prevention Policy for COVID - 19

Orlando Wedding & Party Rentals is committed to doing our part in facilitating a safe environment for all of our employees and clients. Our goal is to service our customers while proactively following the Centers for Disease Control (CDC) guidance regarding the Coronavirus (COVID - 19). If you are planning an event, we understand the concerns you may have for the health of you and your guests. We have set forth extra precautionary measures to maintain business and the safety and wellbeing of our customers, employees and partners.

Here are some additional steps Orlando Wedding & Party Rentals is taking:

- We are closely following the guidelines from the Centers for Disease Control and Prevention (CDC) as well as our local U.S. Health authorities to provide our employees with updated guidelines and direction on healthy workplace habits.
- Employees are asked NOT to report to work if they are ill.
- Employees' temperatures are taken at the beginning of each shift.
- PPE such as masks and gloves are being used as well as extra sanitation routines
- We have provided sanitation goods throughout our workspace and warehouse.
- All equipment is being sanitized and handled with precaution before leaving the warehouse to avoid potential spread of the virus.
- All delivery, site survey personnel, and operational teams are required to wear appropriate PPE.

As always, health and sanitation are the utmost concern in our business. We are complying with the CDC protocols and continue to practice safe and sanitary measures with our products. Below is an overview of some of our cleaning procedures:

Dishware: Our cleaning equipment has been certified in sanitizing wares to a level that completely inactivates the Coronavirus (COVID - 19). All dishware, flatware and glassware items are washed in our commercial washing machine that heats in excess of 140 degrees

Fahrenheit with a high alkaline detergent. All items are then sealed in food grade plastic and stored with clean and sanitary procedures.

Linens: Linens are processed with a strict wash cycle length and cleaning solution standards to meet industry recommendations in providing clean and sanitary linens. All linens are cleaned, pressed, packaged, and stored with clean and sanitary practices.

Tables, tents, chairs, dance floors and warehouse equipment: All of these products are thoroughly sanitized before and after leaving our warehouse with a disinfectant for maximum sanitation.

Pick-up Orders: To ensure a contactless pickup at our location, our staff will bring all items out to our vehicle wearing a mask and gloves and place items inside your vehicle.

Showroom visits: Showroom appointments are available by appointment only. All patrons when visiting our showroom are asked to wear a mask and respect a 6 foot proximity area. To minimize touchpoints, our staff will demonstrate and set up items during your visit. We will clean and sanitize common areas/products before and after each appointment to ensure adequate sanitation.

As we respond to the evolving health situation, we will evaluate additional measures as recommended. We are committed to working with you during this time.

Thanks so much for your support and for your business!
